

INTRODUCING ONE of THE PRODUCTS THAT IS BEING ADDED TO OUR LINE-UP

## ***“DROP SEEDER” by PLOTMASTER™***

The ***“Drop Seeder”*** has been designed for individuals who have disking and tilling equipment but do not have seeding capability. This design can be used with Trucks, UTV’s and ATV’s alike. The ***“Drop Seeder”*** support bracket (“L”) leading to the receiver of the towing vehicle can be attached to the front or rear of your towing vehicle with a standard 2” receiver. It is made with heavy duty 2 x 2 tubing for many years of continued use. For those individuals using an ATV with a smaller receiving system (1 ¼”) a “Hitch Adapter” can be purchased through your local Cabela’s store.

*YOU CAN QUICKLY AND EASILY CONVERT YOUR 1-1/4” RECEIVER HITCH TO A 2” HITCH WITH THIS SIMPLE-TO-INSTALL ADAPTER. POWDER-COATED BLACK FINISH GUARDS AGAINST RUST AND CORROSION. (Shown Below)*

**Introductory Price \$399.00**

**Included:**

**Seed Box Assembly w/Seed Flow Control**

**2 pc Mounting Kit**

**Agitator Brush System**

**Electric Seed Motor w/on-off Control**

The ***“Drop Seeder”*** can plant virtually any type seeds, including large pea-sized seed to small clover and grass seeds. Planting rates can be easily adjusted with its adjustable seed flow control handle located on the side of the ***“Drop Seeder”***. The Agitator Brush System is driven by a heavy duty seeder motor which can be activated from the seat of the vehicle. The capacity of the ***“Drop Seeder”*** is up to 50#’s.
